

# WAR IN EUROPE IS ENDED

## U. S. MAY INTERVENE WITHIN 30 DAYS

### PEACE TERMS AGREED TO BY BALKAN ANTAGONIST

#### Special Nugget Service.

BUCHAREST, July 22.—Bulgaria has agreed to peace terms proposed by Roumania and arrangements are also made to have been made with Greece and Serbia which now make sure the cessation of hostilities in the Balkans unless some other untoward act should come to destroy the good work effected.

The terms of the agreements have not been published but they are said to contain the agreement on the part of the Bulgars to evacuate quite a lot of territory captured from Turkey

while they are permitted to retain all of their own territory and a respectable slice of the lands conquered. The territory to be held is not however, of sufficient area to enable her to become so much more powerful than her neighbors as to endanger their independence. The chief concern of Greece, Serbia and Roumania was that Bulgaria would become a really great power and so dominate the whole Southeast of the continent of Europe. The Bulgarian foreign minister yesterday notified the Roumanian government that his country was ready

and willing to meet the demands of the allies and further preparations of a warlike nature have been suspended. This capital has almost gone wild with rejoicing over the splendid turn which matters have taken. The present advisors of the czar are raised to the position of national heroes by the manner in which they have managed affairs and brought such benefits to Roumania with a comparatively small loss in life or money.

Thorulf Lehmann, Purveyor to the people of Seward.

### LATER

#### Nugget Special Service.

SEATTLE, July 22.—Sergeant A. E. Wallace, who was stabbed and beaten by members of the I. W. W. last Thursday night in this city, died today of blood poisoning which came from one of his wounds.

PATTERSON, July 22.—The Helvetia silk mills were partially wrecked by a bomb today. The loss of life is not known if there was any which is doubtful.

BINGHAMPTON, New York, July 22.—Forty girls are believed to have been burned to death today when the Freeman overalls factory was destroyed by fire.

#### TAUGHT SCHOOL 70

#### YEARS AND DIED

#### Special Nugget Service

PHILADELPHIA, July 22.—Professor Zeppanah died in this city yesterday after having been a teacher in the high school for seventy years. Some remarkable statistical facts are being published here in connection with the professor's death. It is shown that he has passed through his hands a number of boys and girls sufficient for the population of a fairly large town. Up to the time of his last illness he had full command of all his faculties and was clear in mind and able to perform his duties.

#### WEBB SUES SCHWARZ FOR

#### MONEY SAID TO BE LENT

John A. Webb has filed suit against B. Schwarz for the recovery of the sum of \$1,036.96 said to have been lent to enable the defendant to meet the expenses of litigation etc. arising from the law proceedings connected with the Golden Bull mining claim. The complaint sets out that Mr. Webb gave \$1,147.55 to aid the defendant and others to carry on the litigation in connection with the claim and that the defendant owned one-fourth interest in the ground and that the defendants, including Mr. Schwarz, agreed to reimburse the plaintiff. The plaintiff says that the defendant refused to pay back the money alleged to be due, hence the present suit. The plaintiff also asks for interest.

#### TO STUDY CANADA FOR TRUST LEGISLATION

#### Special Nugget Service.

SEATTLE, July 22.—Medill McCormick has arrived in this city enroute to British Columbia for the purpose of studying the method of government in Western Canada. It is his intention to spend quite a time in several of the western provinces of the Dominion in pursuit of the information he requires. As to what his intentions are eventually he is quiet but there is a suspicion that he wants to learn the attitude of the Canadian authorities in the matter of trust legislation with a view to having factories removed from this country if unfavorable legislation is persisted in by the United States.

#### NOME WILL NOW HAVE A BRAND NEW STREET

It has been decided to purchase the lots which formerly belonged to the Northwestern Commercial company near the Beau Mercantile company's store for the purpose of making the place a street. The price paid for the lots is only \$50 and the street is expected to provide a very great and much needed convenience to that end of the city.

The steamer Hettie B will take the Alaska's place, carrying the mail for the U. S. Mercantile Co.

GO TO THE NORTH POLE Bakery for the best bread and pastry. The only Coffee House in town.

Sanitary couches, \$5.00. Sewing machines, \$5.00 to \$20.00. Extension tables, oak, \$5.00. Bargains at Holt's.

### LANE WANTS 900 MILES OF R. R. AND NAVAL STATION

#### Special Nugget Service.

CHICAGO, July 22.—Secretary Lane of the Interior department declared today on his arrival in this city that Alaska should have not less than 900 miles of railroad built by the government and that it should be also the site of a coaling station for the United States fleet.

His words were simply a revelation to the people of Chicago. He declared that Alaska is the greatest land of resources controlled by the United States without exception and that within a short time there will be a

colonization movement to Alaska that will make all movements of the kind in the United States proper pale into insignificance. The secretary seemed to be thoroughly convinced that Alaska is a land of resources which have not yet become known.

He called upon congress to appropriate the money asked for and he felt safe in promising that in a few years following the appropriation of the money thousands of colonists will begin to enter the territory, not for a short stay but to settle down on the rich lands and for the purpose of

developing the permanent resources of the territory.

The secretary is on a tour of inspection which will take in all the western states and will extend to Seattle and the country around. While in Seattle he hopes to get in touch with Alaskans. One fact is made certain by his speech and that is that he is determined to do all that a secretary of the Interior can do to develop the territory.

### STANDARD OIL AT LAST COMES ACROSS

#### Nugget Special Service.

GREENVILLE, Texas, July 22.—Standard Oil paid over to the state treasurer yesterday the sum of half a million dollars as part of the amount which it has agreed to give up in settlement of the claims made by the state. The total amount which the state claimed was \$102,600,000 and for this amount the courts declared the great oil trust to be liable. After prolonged arguments in the courts it

was found expedient by the trust to make a settlement and the amount paid yesterday is part of the money.

The payment of the half a million is regarded as the beginning of the capitulation of the great corporation to the laws of the states in which it has a foothold and many further great sums are expected to be paid in settlement of various claims over different parts of the country from this time forward.

### FUKIEN LEAVES THE REPUBLIC

#### Special Nugget Service.

WASHINGTON, July 22.—Word was received by the state department today that the province of Fukien has now seceded from the republic of China and risen in arms to compel its recognition as a free and independent state. Coming with this information is the news that the republic is now split up so badly that the present government has hardly the slightest chance to weather the storm and can only hope to keep fighting and sacrificing thousands of lives. The greatest regret is expressed on all hands that China should have failed so miserably just when it seemed that the country was on the eve of a really popular government.

Just arrived at Holt's Dinner and tea sets, \$8.00 to \$15.00. Granite and Glassware, Shelf hardware. Everything at Holt's.

Steamer Corwin will sail for Teller, York, Wales, Deering, Keewalik and Blossom July 24. For particulars call at Corwin office.

### SAYS BRYAN'S PLAN MEANS CONQUEST

#### Special Nugget Service.

WASHINGTON, July 22.—Senator Borah made a statement today in which he declared that the adoption of the plans of Bryan with respect to Nicaragua would mean nothing less than the establishment of the United States dominion over that republic and over a great part of the South American continent.

The exact statement of the senator in this respect is:

"The plan of Mr. Bryan would mean the going up of the American flag for all time on the Nicaragua canal, and this would be the beginning of complete dominion and ownership."

Several senators are now studying the subject from all points of view. It is generally conceded that the United States for the protection of its own interests should have control of the territory which would be the site of the proposed inter-ocean water way but they feel that the question is altogether too gigantic in scope to be decided without very careful action.

Some publicists seem to feel that the step proposed would be nothing less than the extension of the United States to a great part of the South American continent and an expansion which involves a tremendous alteration in the policy of the country

### RESOLUTION IN HOUSE CALLS FOR WAR WITH MEXICO

#### Special Nugget Service.

WASHINGTON, July 22.—The Mexican situation was brought to a startling point yesterday when Representative Murray of Oklahoma introduced in the lower house of congress a resolution calling for intervention by the United States in Mexico unless order is restored within 30 days.

The preamble of the resolution declares that the present condition of affairs in that republic causes the lives and property of foreigners to be always in danger, and that as the

United States prevents all other powers from interfering on this continent it is impossible for the citizens of other countries to receive protection unless through the efforts of this government.

The mover of the resolution believes that it will be only necessary to show Mexico that the United States will stand no further nonsense but he also believes that if peace is not brought about in the time mentioned it is the duty of this country to send an armed force across the border.

Upon the manner in which the house receives the resolution will depend some momentous circumstances and the whole country is discussing the subject this morning, fully aware that the passing of the resolution may mean the immediate call to arms of American troops. No one seems to be able to give an opinion as to how the vote would be likely to go, but it is generally assumed that the members of the house will be guided in a great measure by the opinion of the President and the Secretary of State.

### THIRTY NEGROES ARE BURNED TO CINDERS

#### Special Nugget Service.

JACKSON, Miss., July 22.—Thirty three negroes were burned to death here yesterday in a cage in the convict farm. When the flames had exhausted themselves the remains of the thirty three victims were found to have been charred almost to cinders and the sight was one of the most sickening in the records of such occurrences.

The cage in which the men had been confined was used as sleeping quarters and was called a cage, because the space was completely surrounded

by iron bars which permitted the occupants to be visible from all sides at once. The cause of the fire is a mystery but soon after it had commenced the negroes were heard shrieking with terror and some were seen through the smoke and fire attempting to break through the bars. The entrance to the cage could not be reached and there was no chance whatever to save the negroes by any other means so that they were soon stifled in death while the stench from the burning bodies drove spectators heading from the neighborhood.

### KNUTE NELSON NOW TESTIFIES

#### Nugget Special Service.

WASHINGTON, July 22.—Senators Knute Nelson and Clarke gave evidence before the lobby investigating committee today and are now being examined as to the charges made by Mulhall which have involved themselves. Both denied strenuously that they ever took part in any plans such as those testified to by the now famous witness. The remainder of their evidence is not very important and their denials were looked for so that the day may be said to be one of the least interesting since the hearings began.

#### CLUBMAN IS MISSING

#### AND ALSO SOME FUNDS

#### Special Nugget Service.

SAN FRANCISCO, July 22.—Frank Green, clubman, author, and head of the Pacific Casualty company is missing and an examination of the books of his company shows that there is a shortage of \$15,000. The police have been placed on his trail but his capture will probably be only effected after a long search as he has had several days in which to put a long distance between himself and this city. He was prominent in certain circles and for some time his intimates were somewhat surprised at the fact that he went and the amount of money which he spent.

#### EVERYTHING QUIET NOW IN SEATTLE'S STREETS

#### Special Nugget Service.

SEATTLE, July 22.—The saloons were all opened in this city yesterday and last night and no further rioting occurred. No attempt was made by the I. W. W. or the socialists to hold meetings and not the slightest disturbance threatened at any time. Many of the most notorious of the agitators and red flag wavers have not shown up since the rioting and the trouble is now supposed to have passed.

#### THE NEW EAGLE.

The home of straight whiskys.

Thorulf Lehmann, Purveyor to the people of Seward.

### MARY SACHS HITS THE TRAIL TODAY

The Mary Sachs, the third and last of the Steffanson expedition fleet, leaves for the North this afternoon and will take away from Nome all the members of the expedition with the possible exception of Mr. Steffanson himself.

This ship, which has been recently elevated to the expeditionary standard, has been loaded with a large cargo of supplies and the work of loading was still continuing today.

Just before two o'clock this afternoon Mr. Steffanson said she would probably get away "in a couple of hours" so she may be gone before this appears in print. Mr. Steffanson, if he does not go on this boat, will join his ship later at Teller, going to that place on the Corwin. He may, however, be aboard the Sachs when she pulls out. With the leaving Nome the expedition will begin its long Arctic experience.

### SENATOR HAS LARGE MAIL

The steamship Senator of the Pacific Coast Steamship Company left Seattle Sunday morning at 11 o'clock with 1,705 pounds of mail for Nome. She has also some freight for Nome, Solomon, Golovin and other points. The Eureka left San Francisco on the same morning at 7 o'clock for Nome with a large amount of freight. She has 247 tons for Nome, 17,773 tons

for St. Michael, 38 tons for Golovin and 103 tons for Solomon.

#### FILES SUIT FOR CLAIM

#### AND BIG DAMAGES

Thomas McGann filed suit today for the possession of the Cleopatra claim near Joss creek and for the recovery of \$5,000 damage said to be inflicted by the wrongful withholding of the property. The defendants are George Nelson and others.

#### NOTICE.

Received at Beale Store, 4 elegant sample sets mink and fox. Will be sold reasonable. Call now.

**WHY? Blend Flour**

TRAIGHT Eastern Hard Wheat flour has its uses. So has the hard wheat flour, it must be thoroughly blended. The housewife finds this too obvious. Hard Wheat flour has desirable qualities that cannot be obtained by any other flour. Bakers realize this, for the production of the best breadstuffs. Bakers realize this, for the production of the best breadstuffs. Bakers realize this, for the production of the best breadstuffs.
